DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 11 are rejected under 35 U.S.C. 102(e) as being anticipated by Berginlid et al PG-PUB 2007/0237134.

Re Claims 1, 11, fig. 2 teaches MS and access point supporting voice of packet network whereby the MS set of plurality of logical connections (a plurality of logical tunnels) for transmitting signaling and bearer traffic wherein the signaling data are prioritized (establishing priorities) over the user data [0011].

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2-10, 12-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Berginlid et al PG-PUB 2007/0237134 in view of Sato U.S. Patent Number 6,553,015.

Re Claims 2, 5, 7, 12, 15, 17, Berginlid fails to explicitly teach the OAM&P. However, Sato teaches in fig. 1, a ATM mobile in communication with a ATM base station. One skilled in the art would have been motivated to modify Berginlid to transmit OAM&P message (See col. 6, lines 45 +) via the signaling logical transport to support ATM applications at the mobile. Therefore, it would have been obvious to one ordinary skilled to combine the references.

Re Claims 3, 13, wherein the system supports voice.

Re Claims 4, 6, 14, 16, wherein the logical connections are modified to VC or permanent VC with different QoS parameters.

Re Claim 8, fig. 4 of Berginlid teaches an IP network.

Re Claims 9, 19, Examiner takes notice that VPN with MPLS are known. One skilled in the art would have been motivated to implement VPN over MPLS to support the VOIP application of Berginlid et al in view of Sato.

Re Claims 10, 20, refer to Claim 2.

Response to Arguments

5. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
